

Reykjavík 10.01.2019

To whom it may concern.

On behalf of the Iceland University of the Arts (IUA) I would like to nominate Sigrún Alba Sigurðardóttir, Assistant Professor in Theory and acting Dean of the Department of Design and Architecture for the CIRRUS board elections.

The CIRRUS network has been imperative for the IUA, and thus participation in meetings, seminars, joint courses and projects has been a key factor in the development of studies within the Department of Design and Architecture at the IUA. Hence we find it important to keep on contributing to the network in as many ways as we can, by sharing knowledge and creating a meaningful discussion between the Nordic and Baltic Universities in the field of Design.

Sigrún Alba has been a dedicated member of the CIRRUS network and has proven her ability to develop and organise projects, seminars and other activities, both within IUA and with collaborative partners. She is insightful and a good leader, who is capable of taking charge as well as listening to others.

With regards,

Friða Björk Ingvarsdóttir
Rector.
